Attorney in pro se and for Plaintiffs

**UNITED STATES DISTRICT COURT
FOR THE CENTRAL DISTRICT OF CALIFORNIA,
SOUTHERN DIVISION**

LISA LIBERI, et al,

Plaintiffs,

vs.

ORLY TAITZ, et al,

Defendants.

CIVIL ACTION NUMBER:

8:11-cv-00485-AG (AJW)

**DECLARATION OF PLAINTIFF
LISA OSTELLA**

Date of Hearing: August 8, 2011
Time of Hearing: 10:00 a.m.
Location: Courtroom 10D

DECLARATION OF LISA OSTELLA

I, Lisa Ostella, am over the age of 18 and am a party to the within action. I have personal knowledge of the facts herein, and if called to do, I could and would competently testify. I am making this Declaration under the penalty of perjury of the Laws of the United States pursuant to 28 U.S.C. §1746.

1. I worked in several companies during my years that required teaching others how to use software applications. My business, Go Excel Global, also taught classes at a Chamber of Commerce to small businesses how to

1 compete with big box stores through eCommerce. People I've taught that
2 don't know how to use computers behave quite differently than Orly Taitz,
3 herein often referred to as "Taitz". People that don't know how to use
4 computers need their hand held in understanding the difference between
5 personal computer functions versus Internet functions. This is not the case
6 with Orly Taitz. Taitz is malingering for creating plausible deniability.
7

8
9 2. When I first started working with Taitz in fall 2008, she brought to the
10 table that her business website, drtaitz.com, was hacked by "Obama thugs"
11 and wanted that posted at drorly.blogspot.com where I was her assistant
12 webmaster. I did not want that posted until it was investigated. Taitz was
13 very allusive during all my questions to find out what happened to
14 drtaitz.com. In the end of my investigations, it turned out she lied. Her
15 husband, Yosef Taitz, set up the site drtaitz.com and Taitz took her own
16 domain off the virtual host for the site.
17

18
19 3. Next, Taitz wanted a PayPal account set up for Defend Our Freedoms
20 Foundation, December 2008. She told me she didn't know how to do it
21 because she never had a PayPal account before. This was another lie. One of
22 the problems I encountered in setting up the PayPal account was her email;
23 dr_taitz@yahoo.com was already associated with a PayPal account. She, or
24 Yosef Taitz, had set up a PayPal for her personal use in October 2008.
25
26
27
28

1 Therefore, Bob Stevens, her head webmaster, had to set up gmail e-mail
2 accounts for her in order to continue the set up of her new PayPal account
3 because PayPal does not allow emails to be associated with more than one
4 account, see PayPal Records attached as Exhibits “22” and “23”, Docket
5 number 190-5 and Understanding the Internet, PayPalGate, see Plaintiffs
6 Original complaint, filed May 4, 2009, Docket number 1 at pages 13 through
7 15, paragraphs 44-52; and Affidavit of Lisa Ostella filed August 27, 2009,
8 Docket number 107-1, pages 17 through 32.
9

10
11
12 4. While working as an assistant at drorly.blogspot.com, Taitz kept very
13 close monitoring of what comments were allowed from people posted under
14 her articles on her blog. Her head webmaster, Bob Stevens, not real name;
15 but the name I knew him by, set up a 3rd party program JS-Kit by HaloScan
16 so Taitz would have an easier time blocking people by IPs. When Taitz’s
17 blog started redirecting to porn sites and trying to force command downloads
18 on my computer, I signed into her gmail account. There was the link to the
19 control panel for her JS-Kit controls. I went to the control panel to
20 investigate the problems we were having on the drorly.blogspot.com, see
21 Plaintiffs Original complaint, filed May 4, 2009, Docket number 1 at pages
22 13 through 15, paragraphs 44-52; and Affidavit of Lisa Ostella filed August
23 27, 2009, Docket number 107-1, pages 17 through 32..
24
25
26
27
28

1 5. I was overwhelmed by all the data I saw that this JS-Kit was
2 collecting. There were multiple panel views everywhere much like an FTP
3 program. Data was being collected on blog visitors and uploaded to a
4 different server. This was all under the control of Taitz's control panel. This
5 was not someone who did not understand computers, let alone the Internet.
6

7
8 6. Taitz came over to use my blog site, still protesting she had no idea
9 about anything I had found. She blamed it all on Bob Stevens. I gave her
10 access to my blog for her to post and monitor comments. Taitz right away
11 settled in and was using features in my blog control panel that I had never
12 used. She was using the blog as a private mail relay, remote blogging and
13 email blogging all set up without any need for me to give her a tour of the
14 broadcast control panel. Please note this broadcast site was different software
15 than the blogspot software and had different features. Taitz would also setup
16 posts that she would keep and want left in draft as well as posts with unusual
17 Google Tags, such as: 'googlea72548778058f8bc.html' and I would never
18 get an explanation as to what these set ups were for. All of these behaviors
19 led me further to believe that her statements that she did not understand
20 computers was inaccurate.
21

22
23 7. Also, Taitz had no problems utilizing VOIP or video conferencing.
24 She video conferenced multiple interviews as well as sat in on Citizen Grand
25
26
27
28

1 Juries remotely.

2 8. Even observing her Internet activity as an outsider now, Taitz is
3 utilizing developer tools with Facebook to thread all of her site activity for
4 her blogs and social networks. These are not behaviors of someone that does
5 not know the Internet. However, Taitz definitely wants to project that she
6 doesn't know computers. She needs that image to make others believe her
7 sites were and are constantly hacked and monies stolen. Why is that?

8 9. In December 2008, Taitz, had me searching for a book on Vatel so she
9 could reference the definition on Natural Born Citizen. I found a book
10 online and purchased it. I had inadvertently purchased a book in PDF
11 format rather than a physical book. I downloaded the PDF format. The
12 download format cost \$24.95. I used this downloaded format to send to
13 people as a thank you for donating to Taitz's Defend Our Freedoms
14 Foundations, Inc. I was able to see the donations coming in because my
15 email was in the Defend Our Freedoms Foundation PayPal account as a
16 customer service representative. So, as donations were made to Taitz, I sent
17 a thank you letter with a link to a free download of the Vatel paper on
18 Natural Born Citizen. Taitz sent me a check for \$25.00 to reimburse me for
19 this PDF format book. The check was issued from her dental practice and
20 not from her personal account.
21
22
23
24
25
26
27
28

1 10. In January 2009, Taitz wanted to utilize me further as a legal assistant.
2
3 I told her on many occasions I had never worked in law before. January to
4 February 2009, I was tasked with creating subpoenas.

5 11. February 2009, Taitz wanted me to write legal briefs for her Military
6 and Politician Case. I told her again I did not have legal experience and I
7 had never seen a brief before. Taitz asked me if I had a Lexis account to
8 find briefs and copy them. I had never heard of Lexis at this point and did
9 not know what she was talking about. Taitz brought in a volunteer that was
10 a retired paralegal to work with me in or around February 18, 2009. I
11 worked with this former paralegal for only a few weeks (name and contact
12 can be furnished under seal). I sent the paralegal copies of everything Taitz
13 had sent me and she started helping organize the material and plaintiffs for
14 the suit. The paralegal had strongly suggested breaking the cases out to a
15 Military and a separate Representative suit rather than having all the
16 plaintiffs on one suit. I assisted with organizing the Plaintiffs.
17
18
19
20
21

22 12. We never got around to writing the brief. The paralegal did not last
23 that long as a volunteer. The first task the paralegal had me assist with was
24 to contact Taitz's clients to verify their consent to be Plaintiffs. We did not
25 complete that task. The first few we had contacted had no idea they were
26 Plaintiffs in a lawsuit. We brought that to Taitz's attention. Taitz yelled and
27
28

1 screamed that we had no right contacting her clients. Taitz accused the
2 paralegal of trying to steal her clients. Taitz fired the paralegal and ordered
3 me never to speak with the paralegal again. The Military and Representative
4 Suits we were supposed to be working on were never written.
5

6 13. The same above mentioned paralegal called me late on May 6th,
7 2009. Apparently Taitz had listened to an interview Phil Berg had on
8 Patriots Heart Network and was seeing plaid. The paralegal was extremely
9 concerned and strongly encouraged me to take my kids out of school and
10 move immediately. The paralegal told me to stay aware of where my dogs
11 were at all times, if they went silent, to call the police fast. She told me to
12 make arrangements with my husband to call and check on me often and if I
13 didn't answer the phone, to call the police fast. She said Orly Taitz
14 threatened that professionals were going to be used to "get my kids".
15

16 14. I reported this to the North Brunswick Police. My contact was
17 Detective Cano. The threats started to increase. Payment requests had been
18 submitted to Orly Taitz's, Defend Our Freedoms Foundation PayPal account
19 for a total sum of \$25,000 in three consecutive increments under the \$10,000
20 reporting laws on two separate occasions; see Ruben Nieto payment
21 requests, Exhibits "138" and "139" filed on May 20, 2011, docket numbers
22 190-24 and 190-25. I ran a social networking search in Spokeo.com using
23
24
25
26
27
28

1 the email Ruben Nieto used in the PayPal payment request and learned he
2 resided in Albuquerque, New Mexico, close to Lisa Liberi's home. It was
3 also discovered in the New Mexico Judiciary that Nieto had been convicted
4 of serious violent type offenses. I feared this man was hired by Taitz to
5 harm me, Lisa Liberi and our families as had been threatened by Orly Taitz.
6

7
8 15. I was provided a Court date in North Brunswick to appear regarding
9 the criminal threats made by Taitz. The Court sent a subpoena to Orly Taitz
10 to appear for criminal court to establish whether there was sufficient cause to
11 charge her criminally. Taitz never appeared. The Judge handling this
12 procedure stated he had spoken with the Federal Bureau of Investigations
13 (FBI); and he had to close the proceedings. I was scared to death that Orly
14 Taitz was going to harm me, my children and husband.
15

16
17
18 16. August 7, 2009, we had our TRO hearing before Judge Robreno in
19 Pennsylvania. I testified to the criminal report I had filed; the threats by
20 Orly Taitz to have my children professionally kidnapped and my fear, see
21 the August 7, 2009 Transcript, docket number 141, pages 68 through 80, my
22 testimony regarding Orly Taitz's threat to have my children professionally
23 kidnapped and the Police report are located on page 71, lines 22-25; page 72,
24 lines 4-7; the balance of my testimony through page 80 of this transcript
25 relates to the threats being posted on the Internet about me, my family and
26
27
28

1 Plaintiff Lisa Liberi.

2 17. Judge Robreno denied our TRO, I was horrified and scared to death
3 for my children's lives and the life of me and my husband.
4

5 18. Taitz had put out multiple messages containing various threats against
6 us and they were increasing. A GlueText search query done on 7/23/11
7 shows a total of 743 articles in current circulation on the Internet, cite:
8 http://www.gluetext.com/content/1/lisa_ostella/lisa_ostella.html. GlueText
9 search scripts only return live links and includes the publishing source as
10 well as last date published. Most of these articles and posts were published
11 by Taitz through her developer's applications as per the provided source in
12 the GlueText search query. That is further proof that she is not naive when
13 it comes to computers and the Internet. 95% of these returns show articles,
14 posts with Taitz's false claims of my criminal activity and criminal record.
15 Taitz continues to post about us and this case even after Judge Guilford
16 sanctioned her, 7/22/11. No average person would know or believe that the
17 accusations are not true. Average people are not in contact with the service
18 providers like we have been. The service providers that host these sites tell
19 us we cannot have these stories removed without a court order as per their
20 standard policy.
21
22
23
24
25
26

27 19. Taitz had contact directly and indirectly with my neighbors, people in
28

1 my town, my county and two other counties I worked in when we lived in
2 North Brunswick. She sent her posts with false assertions and accusations to
3 them through the email, through links and third person outreach. Taitz, with
4 her associates reached out to every customer I had as Go Excel Global,
5 associates of mine in town, county and the Chamber of Commerce's my
6 business belonged to and told them I had a felony record and I was stealing
7 from her Nonprofit Foundation. Taitz and her associates reported me and
8 my business, Go Excel Global to the North Brunswick Police, the New
9 Jersey FBI, New Jersey State Consumer Affairs, North Brunswick
10 Republican Organization, Middlesex County Republican Organization;
11 individual customers found listed with my domain name and politicians I
12 had worked for. Search engines run on my name brings up endless listings
13 of 'Crimes by Lisa Ostella'. She did this as an attorney with the backing of a
14 Private Investigator with Scotland Yard credentials and did this through a
15 person that works as a Minister and Author. And no one shut her down. So
16 no one knew what to believe.

23 20. We moved to get away from the fear and humiliation caused by Taitz.
24 Since these stories and posts continue to be published and republished, my
25 new neighbors and people my family and I are involved with such as school,
26 clubs activities, and my husband's work colleagues and students are now
27
28

1 seeing these posts and articles. People are trying to tip toe around the
2 information politely; but, they are wondering if I am a criminal and are
3 making decisions based on this confusion. I will never be able to undo these
4 perceptions. My children and husband, who is professionally credentialed,
5 has become victims of these perceptions too.
6
7

8 21. During the same time Taitz was posting my personal information,
9 such as: name, address, phone number, maiden name, and names of my
10 family members, my social security number and personal information on the
11 Internet and showed up in the slavehack.com database see Plaintiffs First
12 Amended Complaint on page 56, paragraph 133. Slavehack.com is an
13 online game for hackers. Slavehack is for training hackers to crack
14 computers, servers and banks as well as live time attacks. Attached as
15 **EXHIBIT “1”** is a partial member list. This list alone includes some very
16 well known hacker groups including 4Chan, a known anonymous “hacking”
17 group.
18
19
20
21

22 22. January 2011. My private information was available to all these
23 hacker groups internationally. After Taitz started distributing our private
24 information through the Internet and other third parties, Lexis searches on
25 Liberi and myself started showing our social securities numbers as being
26 used by multiple people. I never expected Taitz or anyone else to have
27
28

1 access to any of my private data.

2 23. I had learned from North Brunswick's Detective Cano we had
3 jurisdictional issues when it came to Internet crimes with different laws in
4 different states. Judge Robreno in our civil case didn't give us a tool
5 Detective Cano said we needed, the TRO, and Orly Taitz had escalated her
6 threats against me, my family and the other Plaintiffs in our case. I felt
7 powerless; I was scared for my safety and that of my family.
8

9
10 24. I had to get my family out of our North Brunswick home for their
11 safety. Now we are in danger in our new town.
12

13 25. We were going to move to keep my children in the same private
14 diocese school system. But Taitz's threatening and dangerous actions
15 radically changed that. I couldn't bring strangers in to see the house if we
16 were to list it any multiple listing service, MLS. I wouldn't know if they
17 were Taitz followers and staking out my house since Taitz also works in real
18 estate and has access to that service. I called investors, had my mortgage
19 bought out within two weeks, and physically moved my family in to my
20 husband's uncle's house. I had that house in North Brunswick packed up and
21 moved in three weeks by myself due to my husband's work schedule. I
22 honestly didn't know, since Taitz had real estate connections (see
23 TaitzOfficeSuites.com) if she would have contacts with any professional
24
25
26
27
28

1 movers. I wasn't risking it. What I couldn't move, I left. We resided in my
2 husband's uncle's house without an approved mortgage for months trying to
3 hide for our safety from Orly Taitz, her followers and supporters.
4

5 26. While all this was going on, a woman called me on my cell phone
6 claiming to be my 'biological Aunt'. She said she had seen a post on some
7 unnamed message forum claiming to be from me, looking for my biological
8 mother and that I had my cell phone posted for contact. I never made any
9 such post. I especially wouldn't post on a message on a forum looking for
10 information about my biological family and leave my personal contact
11 information. I knew very well the Internet is the Wild West for insanity.
12 This woman, calling herself 'LeeAnn' said my biological mother was looking
13 to get in touch with me and her name is 'Jane' and lives in California. I told
14 her this 'Jane' could send me an email and I didn't want 'LeeAnn' or 'Jane' to
15 call me. I had no idea where this was coming from and I didn't want to go
16 down this rabbit hole.
17
18
19
20
21

22 27. During this time, I found a MySpace page while running Orly Taitz's
23 Yahoo email in Spokeo.com (a social networking search engine). Spokeo
24 pulled a MySpace page made with Taitz's Yahoo email where she called
25 herself 'Jane'. She listed her age as 18 and had MySpace friends that looked
26 like a bunch of young girls.
27
28

1 28. Also, during this time period, Orly Taitz posted that my attorney's
2 assistant, Lisa Liberi, was born in Washington State, her father's name and
3 her mother's maiden name. We called the records office in Washington
4 State to learn what information was needed to obtain a copy of a birth
5 certificate. Washington State just needed the same primary identification
6 information that Taitz had sent out all over the Internet. We both wondered
7 if this is how Taitz learned I was adopted, if my 'Jane' was also Taitz or an
8 associate of hers.
9

10 29. The day we began residing at my husband's uncle's house, I received
11 an email from 'Jane'. She said she was watching our moving day on Google
12 Satellite. Normal Google Satellite doesn't allow for live time viewing.
13 However, Orly Taitz's husband's company, Daylight, is a U.S. Department
14 of Defense Contractor. I have no idea what access they have to live satellite
15 feeds. Now I didn't know what to think or what to do. I made this move,
16 fast and as quietly as possible in order to protect myself and family.
17

18 30. When we filed suit, my attorney recommended that I use a P.O. Box
19 number to mask my personal contact information. I obtained a post office
20 box in the town I moved out of, North Brunswick, to help mask my move.
21 That didn't fool Orly Taitz. Taitz posted all over her blog that the P.O. Box
22 was only used as my business address. So that didn't work.
23
24
25
26
27
28

1 31. Months later, our mortgage came through and now we had to make
2 my husband's uncle's house our legal address. I put as much of the utility
3 and contact information under our P.O. Box as I could; New Jersey has
4 stricter laws than most states in using P.O. Boxes as contact information. A
5 few days after the deed was filed in the state records, I ran our information
6 in search engines. The deed record came up cached in a Google search
7 page. That record information is entered in a database. The record was
8 cached in a html page. In order for that to happen, that record would have
9 had to been pulled several times for Google to cache it as an html (web
10 page) page. That means someone ran our information several times and
11 pulled that information to make it display as a webpage in order to get it
12 cached in a Google search engine.
13

14 32. Nine days after this record was publicly accessible, my children's
15 rabbits were gutted. The carcasses were nowhere to be found; but the inerts
16 were intact and laid out at the foot of our deck right where one would step
17 off our deck. Animal Control set up a motion camera in my yard right
18 where their coops were kept. If it was an animal that did this, they would be
19 back to the same spot within a few days if we left the smells (hay and
20 bedding) there. That camera was up for two weeks. No animal came into
21 our yard and approached the coops looking for the rabbits. Wild animals
22 23 24 25 26 27 28

1 will tear apart their meals and or carry them off and bury them. Not lay out
2 and display the inerts. We reside in a private upper class community. The
3 neighborhood and area we reside has a very low crime rate. Most of the
4 people here didn't even know we had rabbits; we were still too new to the
5 neighborhood.
6

7
8 33. Now I learned I had a new problem. Our move changed our
9 jurisdiction. Even though I had my reports I had made with North
10 Brunswick transferred, my new town can't prosecute anything that happened
11 in North Brunswick. Yes, the events were on record, but we had to start all
12 over again.
13

14
15 34. Shortly after my rabbits were killed, I agreed to lend testimony to
16 Charles Lincoln, referred to as Lincoln from here on, in a case he was being
17 falsely accused of crimes by Orly Taitz, U.S. Bank v. Riverneider, U.S.
18 District Court, Southern District of Florida, Case No. 9:09-cv-81255-WPD. I
19 had learned from my attorney, who was representing Lincoln that he had
20 information for me and would provide me with an affidavit.
21

22
23 35. It turned out that Lincoln drove Orly Taitz around New Jersey after a
24 hearing in our case in Pennsylvania. The areas they drove around were that
25 of my children's school and where we resided.
26

27 36. The testimony Lincoln had needed from me for his Riverneider Case
28

1 was in regards to when I was her assistant. Orly Taitz had me sign
2 documents for her, which was pertinent to his case, as Orly Taitz was falsely
3 accusing Lincoln of forging her name. Lincoln had become Taitz assistant
4 after I had kicked her off of my website. I was shocked, horrified and
5 scared when I saw Lincoln's affidavit. During the time when I had received
6 information that Orly Taitz was going to have my children professionally
7 kidnapped, she had come here to New Jersey. Lincoln had driven her to the
8 locations she (Taitz) had instructed. He drove her past my children's school,
9 my home, and to the North Brunswick Police Department. I know this
10 because of the roads Lincoln stated he was on and the paths taken.
11

12 37. A few months after I received Lincoln's affidavit, I was running my
13 children's emails in Spokeo.com and for the first time a picture of my
14 daughter came up. An account was opened for my daughter at Slide.com
15 with her Yahoo email. A picture (blurred) of her was there, standing outside
16 her school waiting for me to pick her up. That picture would have been
17 taken during the time Orly Taitz and Lincoln drove by because of my
18 daughter's hairstyle. My daughter always had long hair and had it cut the
19 first time in her life late May 2009 (Taitz and Lincoln were driving around
20 my children's school and our residence on or about June 25, 2009). The
21 picture was uploaded to the Slide.com account as a slide show; but this was
22
23
24
25
26
27
28

1 the only picture left on the account so I couldn't see what other pictures were
2 used to create the slide show.

3
4 38. Between my Attorney's office and the Denville Police, I finally got the
5 account down and closed. I gave the Denville Police the affidavit of Charles
6 Lincoln about Orly Taitz and their drive by. But again, jurisdictional issues
7 became a problem. The drive by occurred in North Brunswick. They made
8 a contact with the FBI and started forwarding all the information. The
9 Denville Police said if our Judge would issue a TRO, it would give them
10 more tools to work with. I took steps after this to make a few changes in my
11 children's appearance. Thankfully, many of these officers I was working
12 with are also the resource officers at their schools. I did not know what else
13 to do.
14
15
16

17
18 39. Orly Taitz of course, during all of these times, continued to issue lies
19 and threats about us online. She continues to create sites and reissue old as
20 well as new posts with false accusations about me and my 'crimes' and false
21 accusations about Lisa Liberi and Mr. Berg.
22

23 40. My daughter's birthday was coming up and we were planning the
24 event. I started receiving posts that were awaiting moderation in the
25 DefendOurFreedoms blog. The IPs were coming from a server out of the
26 Russian Federation. They were comments about my daughter's birthday and
27
28

1 to buy online drugs from them for a present. Why would anyone posting
2 from a Russian Federation Server know I had a daughter, let alone that her
3 birthday was coming up??!! A few weeks after this post, I received a card in
4 the mail from this woman from California, 'Jane' saying she was going to be
5 in my state during the weekend of my daughter's birthday and she wanted to
6 come by and see my daughter. 'Jane' claimed she had just moved and her
7 old contact information would no longer work. So now this woman claims
8 she was going to be here. This scared me so much that I hired a police
9 officer to guard my daughter's party and protect my family. It must have
10 worked because two days after the party, some random unnamed person on
11 one of the forums that follows every breathe that Orly Taitz takes, posted an
